

# NOW BY HMC

A COMPREHENSIVE FOOD  
DELIVERY MARKETPLACE

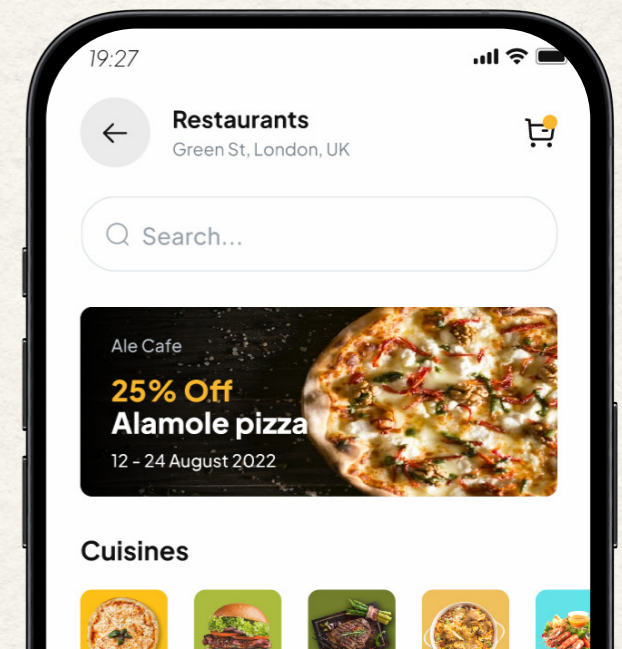

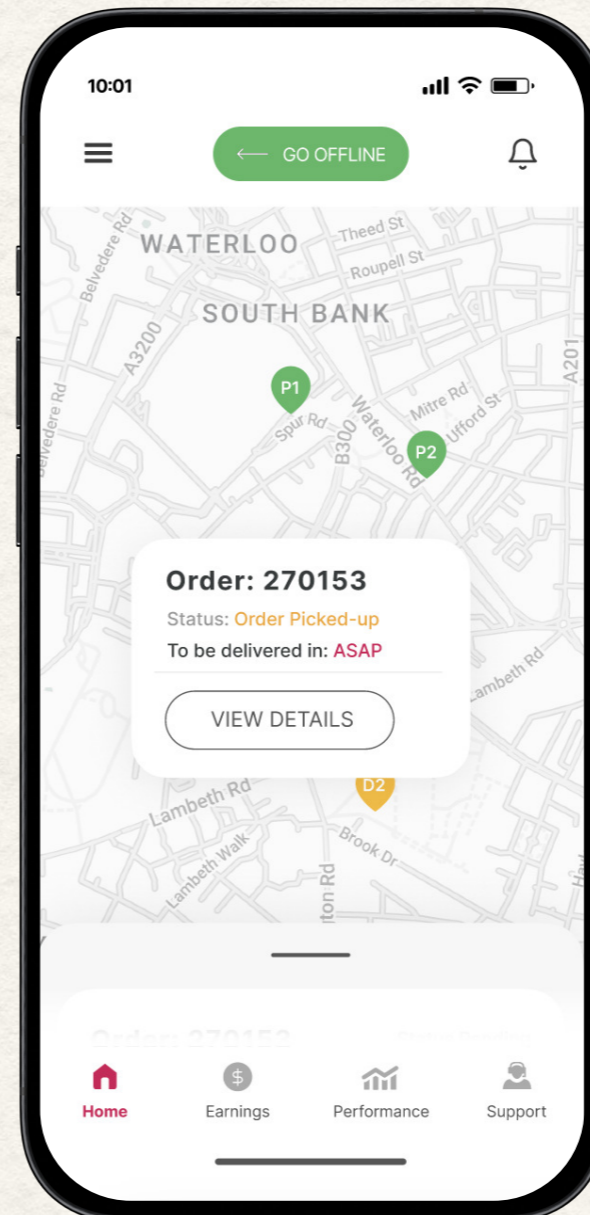

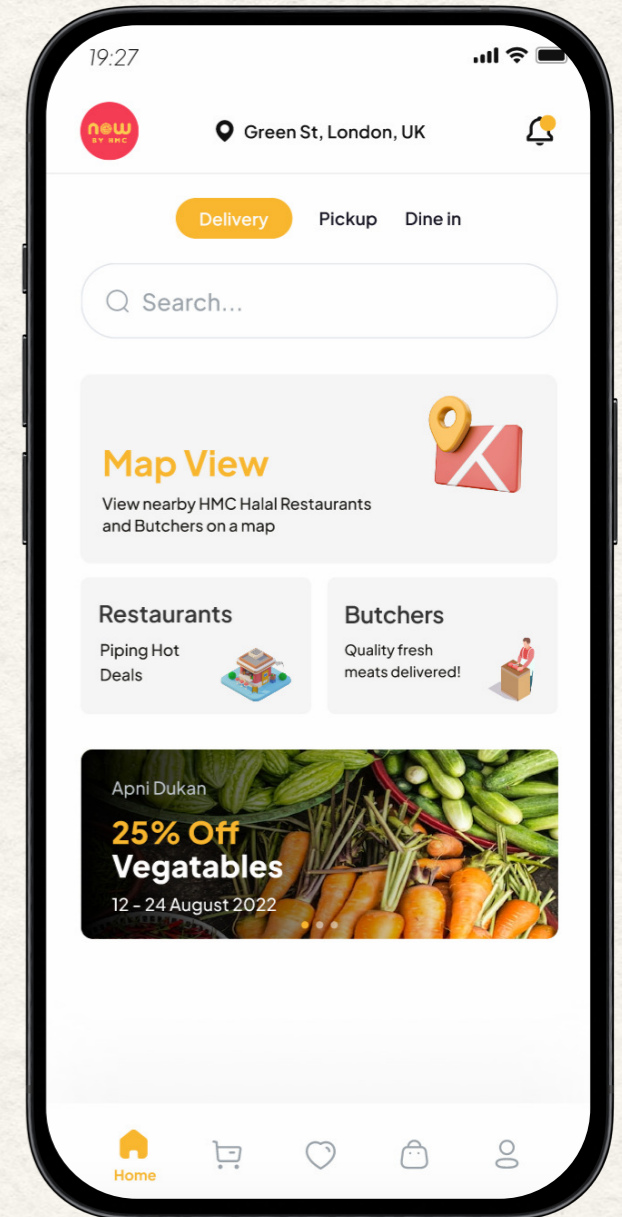

# WHAT IS HALALEATS?

HalalEats is a robust food delivery marketplace tailored to the unique requirements of the United Kingdom's Halal food industry.

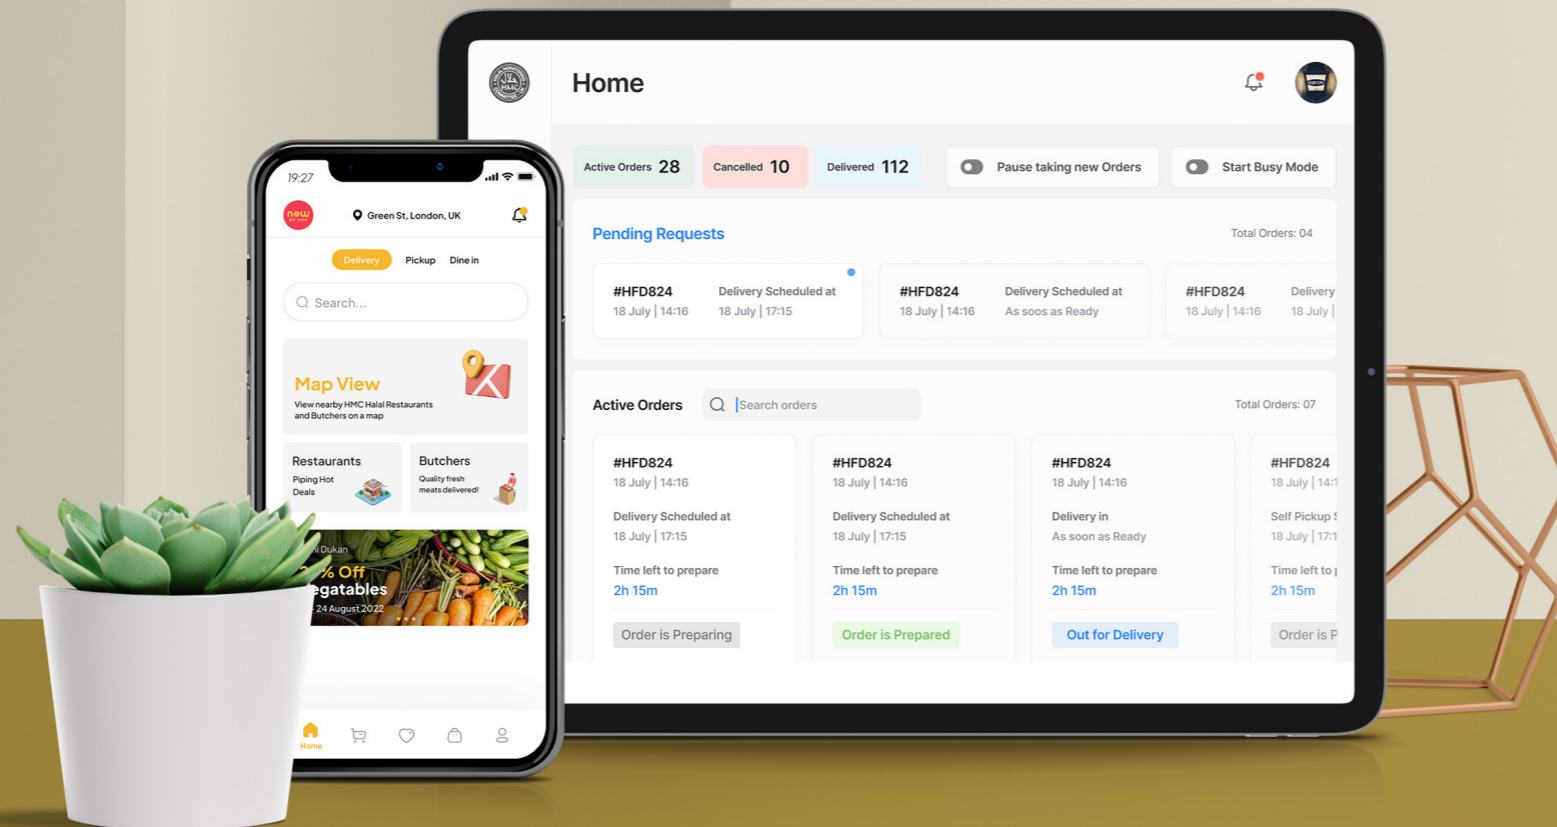

Developed in collaboration with the Halal Monitoring Committee of the United Kingdom, this platform aims to provide a seamless and convenient experience for customers, vendors, and delivery riders.

# A Comprehensive Platform

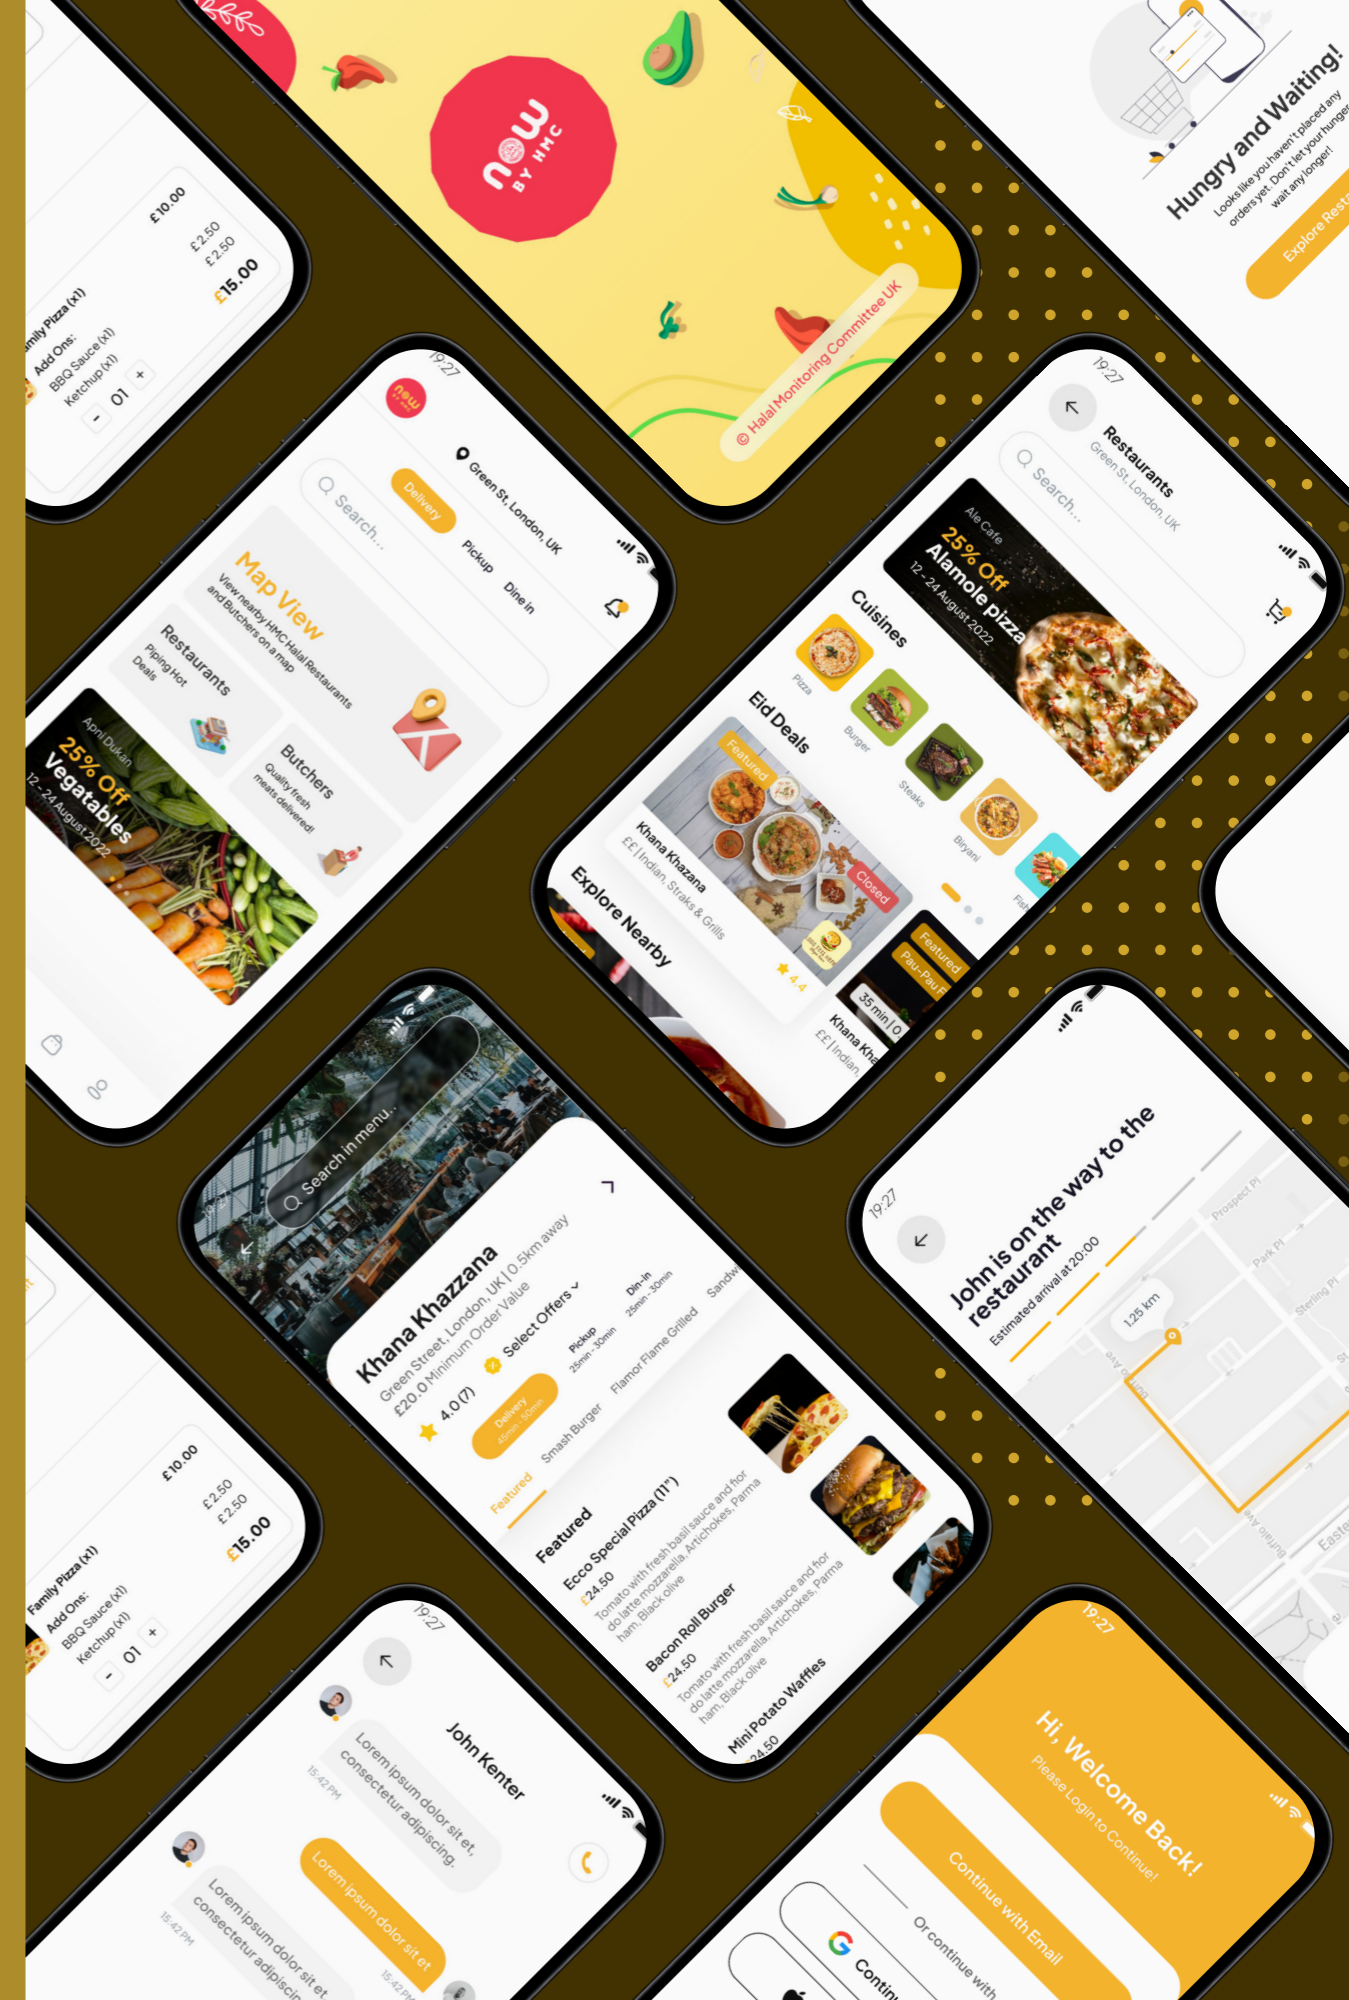

The platform encompasses a customer mobile app, vendor mobile app, rider mobile app, and specialized dashboards for vendors, riders, and administrators.

## PLATFORM #1

# CUSTOMER APP FOR IOS & ANDROID

- 1. User-friendly Interface:** The customer app boasts an intuitive design, allowing users to effortlessly browse through a wide range of Halal products.
- 2. Customizable Deals:** Customers can explore personalized and customizable deals tailored to their preferences and dietary requirements.
- 3. Order Placement and Payment:** Seamless order placement and secure payment options ensure a convenient and trustworthy transaction experience.
- 4. Wallet and Points System:** The inclusion of a wallet and points mechanism enhances user engagement and loyalty, encouraging repeat business.

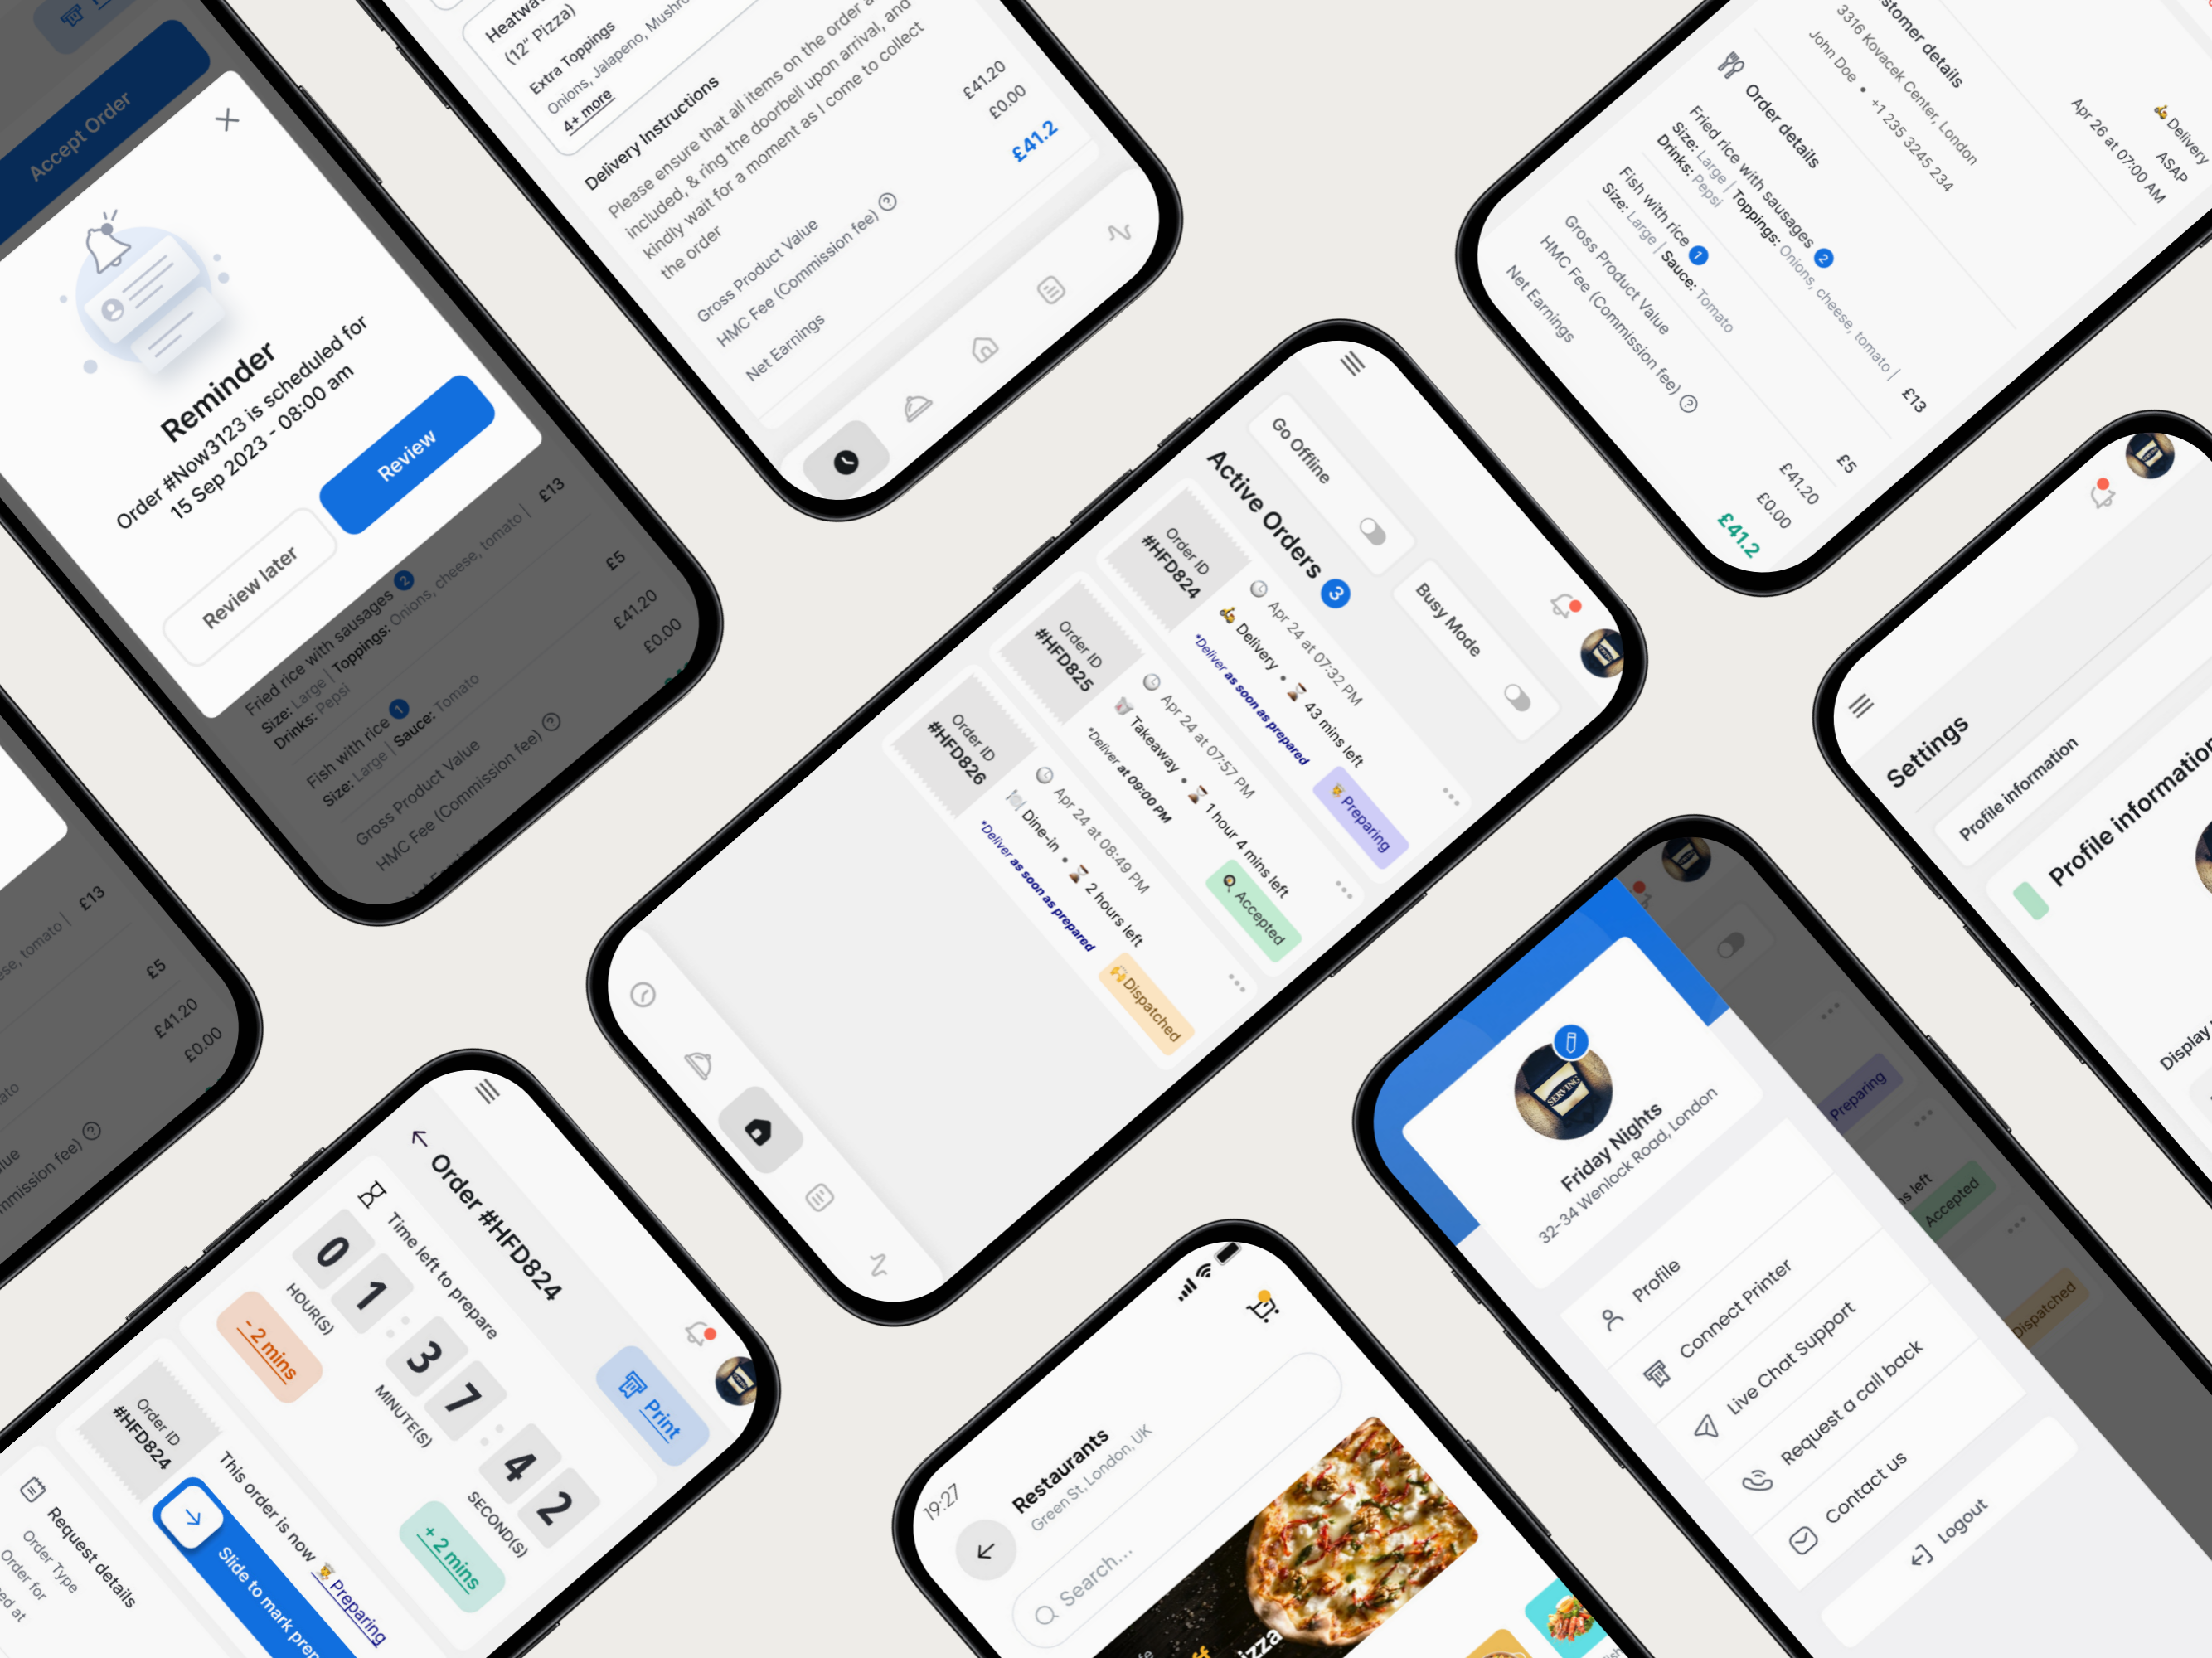

## PLATFORM #2

# VENDOR MOBILE APP

- 1. Order Management:** Vendors can view and manage incoming orders, update order statuses, and efficiently assign orders to delivery riders.
- 2. Menu and Stock Management:** The app allows vendors to easily update and customize their menus, manage stock levels, and ensure accurate product listings.
- 3. Detailed Menu Customization:** Vendors have the flexibility to provide detailed information about their menu items, catering to diverse customer needs.

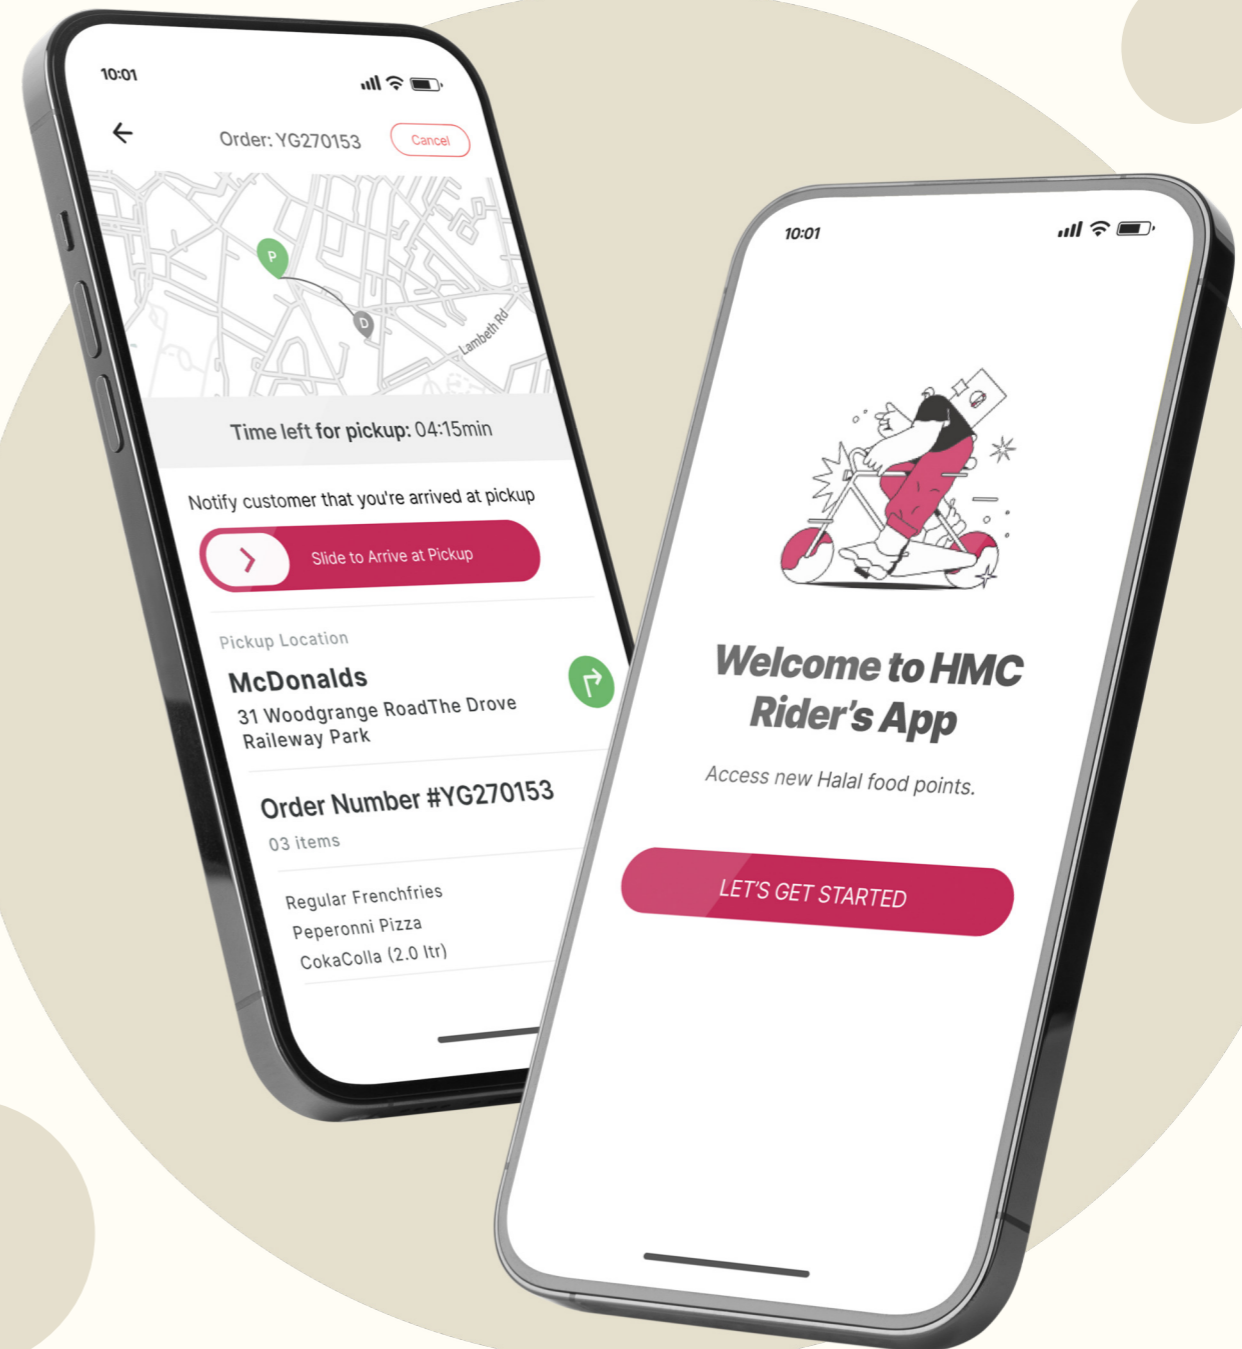

## PLATFORM #3

# RIDER MOBILE APP:

1. **Geolocation-based Assignments:** The rider app utilizes geolocation for efficient order assignments, ensuring timely deliveries and optimal route planning.
2. **Order Handling:** Riders can view assigned orders, pick up items from vendors, and complete deliveries with real-time tracking for customers.

## PLATFORM #4

# VENDOR'S DASHBOARD & MANAGEMENT

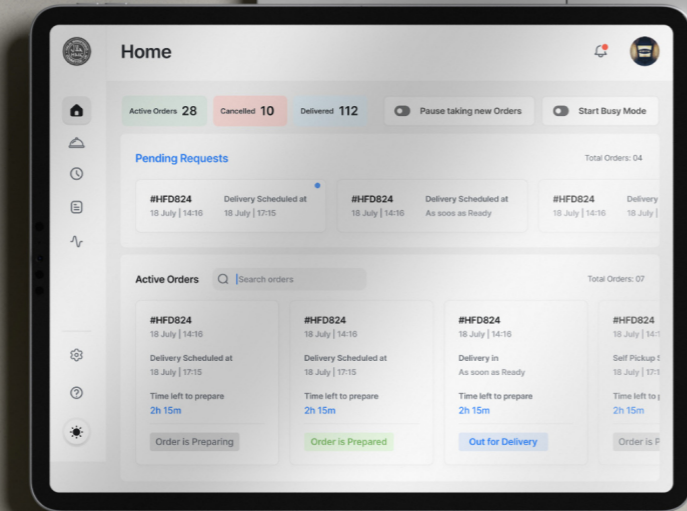

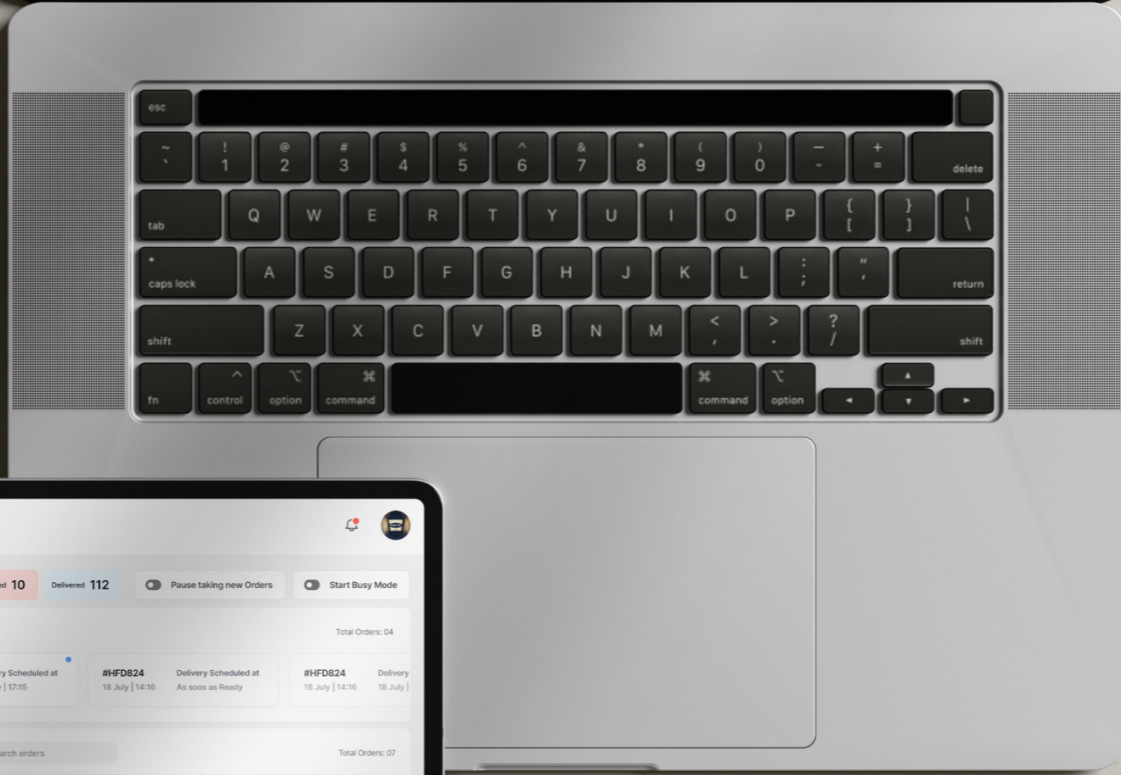

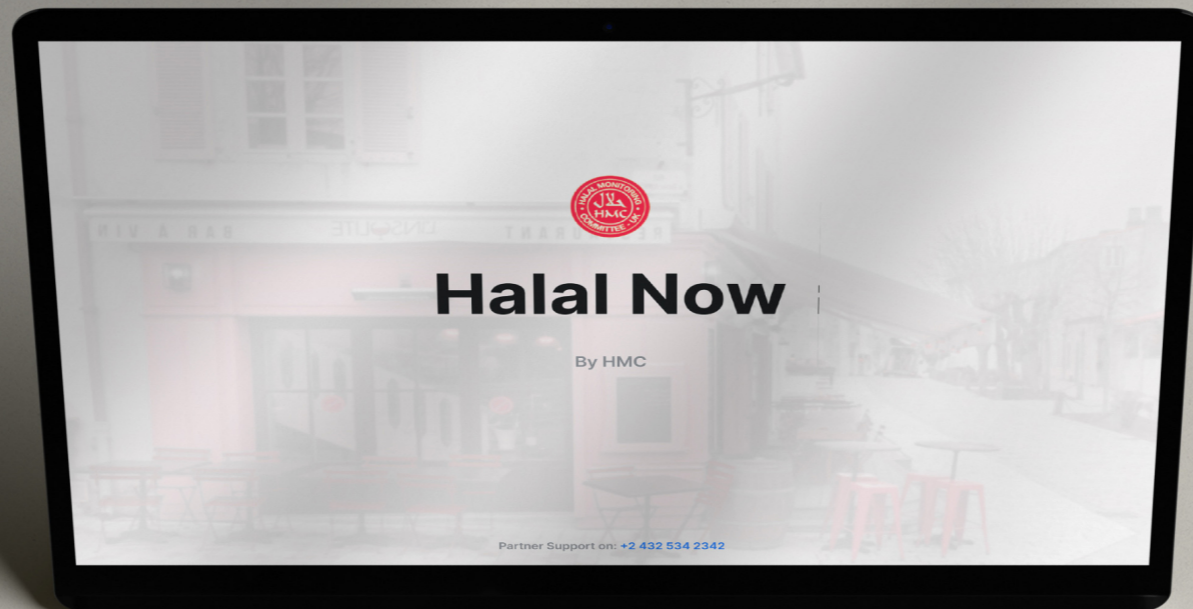

### 1. Vendor Dashboard:

- **Analytics:** Vendors access insightful analytics about their business, including sales trends, popular items, and customer behavior.
- **Menu and Stock Updates:** Vendors can efficiently update their menus and manage stock levels directly through the dashboard.

### 2. Admin Dashboard:

- **Order and Payment Analytics:** The admin dashboard provides comprehensive insights into order volumes, payment trends, and customer preferences.
- **Marketing Insights:** Access to application download data through deep linking allows administrators to evaluate the success of marketing campaigns and make data-driven decisions.
